# Vans are...

## ...Spacious

Travel with the entire family to church or school or—Yellowstone. Lots of leg room, lots of elbow room, and lots of storage for all the travel gear. No more, “Mom, it’s too full back here!”

## ...Versatile

Haul tools Monday through Friday and the family on Saturday and Sunday. Or remove the rear seats and pick up the new kitchen table!

## ...Great for towing

Up to 10,000 pounds. Travel trailers, cargo trailers, utility trailers, horse trailers, etc.

## ...Durable

Tough frames, proven engines and transmissions. 200,000 miles? Not unusual.

## ...Comparatively economical

Yes, a van is expensive, but compare pricing of a late model van with a late model SUV, pick-up, or even some minivans, and the good value of the full-size van will become obvious.

## A Brief Guide

The following illustrations depict the types of vans that are popular with our clientele.

## Need Van Accessories?

We have all kinds in stock. Running boards, bug deflectors, vent shades, towing accessories and more.

## Financing and Warranties

Because some of our customers don't have all the cash in hand to purchase a van, we offer financing from several local banks, securing low rates to save you interest. Want an extended warranty on your van? We have many plans to offer.

Here's a very abbreviated list of items that we service, inspect or repair:

- Oil & oil filter
- Wheels, tires, brakes, & rotors
- Ball joints & tie rods
- Suspension lube
- Lights and mirrors,
- Emergency equipment
- Power features
- Climate system
- Test drive to evaluate handling and noises, etc.

It's all part of...

*Bringing you smiles for miles!!*

## Behind the Scenes...

A lot of behind-the-scene effort has gone into each van on our front row. We scrutinize each one, performing the necessary repairs to give you as many headache-free miles as possible.
