

THE GLENWOOD™

Automatic Multi-fuel Boiler

The Glenwood boiler meets today's need for a high efficiency multi-fuel boiler. With its baffled interior and secondary combustion chamber, the wood or coal gases are forced to be thoroughly burned, generating more heat from less fuel and ultimately saving you money. Loaded with features, the Glenwood comes to you with over thirty years of proven service and thousands of satisfied users.

Use the Glenwood boiler as an "add on" to your existing heating system or as your primary heater and potentially **ELIMINATE YOUR HEATING BILL!**

**Make the smart choice.
Buy a Glenwood boiler.
You'll be glad you did!**

"Ranks in the top 10 best decisions I ever made. I bought this stove 20 years ago and we're very pleased."

-Mark, in Towanda, PA

"I bought my Glenwood over 20 years ago and it's still going strong."

-Paul, in Morgantown, PA

"We're happy with it. No Problems."

-Carl, in Hegins, PA

"It's the only stove to buy."

-Glen, Millmont PA
